

A World of Possibilities

Discover our 20 featured moldings — 9 proven best-sellers and 11 inspired new shades from our new ***Origins*** Collection.

Over 60 colors in stock and ready to order.

Precision in Every Profile

With over **40 years of expertise** in woodworking components, ***Olon***® stands as a trusted North American leader, offering the largest variety of profiles and textures perfectly matched to ***Uniboard***® colours. Their extensive technical knowledge and strong partnerships with door equipment manufacturers ensure a complete presence across the continent — **supporting Door Fabricators, OEMs, and Distributors with precision, consistency, and unmatched service.**

Every ***Olon***® ***moulding*** meets the highest industry standards, passing **ANSI/KCMA A161.1-2000** and **NEMA LD3-2005 testing**. Made from **true CPL with TFL surface properties**, they feature an anti-microbial surface and textures precisely matched to each of ***Uniboard's*** **exclusive finishes**. As the only program offering **matching wrapped wall mouldings and zero-radius face frames in *Uniboard* colors**, ***Olon*** ensures seamless coordination and limitless custom possibilities.

Crafted to Complete Every Design

Olon® has the largest variety of profiles and textures in Uniboard colours in North America.

Created to complement the refined beauty of **Uniboard® panels**, **Olon®'s moulding program** brings together advanced engineering and timeless craftsmanship. Each profile is produced using **true CPL technology** with **TFL surface properties**, ensuring exceptional durability, flexibility, and visual harmony. The result is a moulding that not only performs to the highest standards but also mirrors the texture and depth of **Uniboard's** exclusive finishes with remarkable precision.

Together, **Uniboard® and Olon®** deliver a seamless design solution—where every color, texture, and detail aligns to create a flawless, cohesive finish from panel to moulding.
