

## A World of Possibilities

Discover our 20 featured mouldings, 9 proven best-sellers and 11 inspiring new shades from our 2026-2027 collection, **Origins**.

Over 60 colors in stock and ready to order.

## Precision in Every Profile

With over **40 years of expertise** in woodworking components, Olon® stands as a trusted industry leader in North America. Offering the widest selection of profiles and textures—designed to seamlessly match Uniboard® colors—Olon® combines deep technical know-how with strong partnerships across door equipment manufacturers. The result is reliable support for fabricators, OEMs, and distributors, delivered with consistency, precision, and care.

Every **Olon® NEXGEN® moulding** is compliant with the highest industry standards, passing **ANSI/KCMA A161.1-2000** and **NEMA LD3-2005** testing. Made from true CPL with TFL surface properties, they feature an anti-microbial surface and textures precisely matched to each of Uniboard®'s exclusive finishes.

As the only program offering matching wrapped wall mouldings and zero-radius face frames in Uniboard® colors, Olon® ensures seamless coordination and limitless custom possibilities.

**5-PIECE WRAPPED DOOR  
& ACCESSORY MOULDINGS  
PROGRAM**

## Elevate the Everyday

Uniboard® colors in combination with **Olon® NEXGEN® mouldings** create a complete, ready-to-order program offering perfect texture matches, seamless finishes, and long-lasting durability across 60+ stocked shades.

## The Most Complete Program on the Market

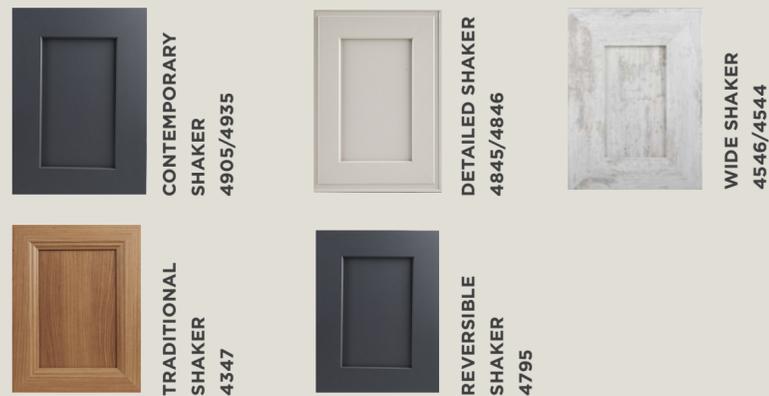

Low minimums. Fast turnaround. Perfect match.  
Designed to make your life easier.

### DOOR MOULDINGS

Available in our 20 featured colors, each door moulding profile is offered in runs of 1,000 linear feet, with a 500-foot minimum per color.

For information on the profiles below and other related products, see Olon's standard program.

### ACCESSORY MOULDINGS

The following mouldings profiles require **2 box minimum**.

For information on the profiles below and other related products, see Olon's standard program.

### Anything but Ordinary

Olon® has the largest variety of profiles and textures in Uniboard® colors in North America.

Created to complement the refined beauty of Uniboard® panels, the **Olon® NEXGEN® mouldings** program brings together advanced engineering and timeless craftsmanship. Each profile is produced using true CPL technology with TFL surface properties, ensuring exceptional durability, flexibility, and visual harmony. The result is a moulding that not only performs to the highest standards but also mirrors the texture and depth of Uniboard®'s exclusive finishes with remarkable precision.

Together, Uniboard® and Olon® deliver a seamless design solution where every color, texture, and detail align to create a flawless finish, from panel to moulding.
