GET TO KNOW UNIBOARD®

Uniboard offers the largest and most exciting array of innovative TFL products in the North American market. Since 2015, Uniboard has launched more than 90 new colours and 7 finishes. Uniboard's most recent 2021-2022 collection combines innovation with the latest trends to bring a new finish to the forefront: Omnia. Along with 6 new colours in Omnia, the collection contains an array of 13 more rich colours to chose from.

Uniboard's exploration of texture, natural design and simple beauty forms the perfect balance creating a stunning and innovative offering for all.

UNIBOARD® COMPLETE CO-PRODUCTS PROGRAM

Superior colour and texture matching with **integra®**

Our Integra® match technology ensures that TFL, HPL, 3DL, and Edgebanding co-products and complementary elements are seamlessly integrated into every design. With the recent introduction of diverse colours, textures and cutting-edge materials, building innovative and on-trend kitchens has never been easier.

TFL PANELS FOR CABINET DOORS

Uniboard's TFL palette offers over 150 colours in 15 finishes offering superior quality, service and cutting edge technology. It features the latest in trends, ranging from EIR/synchro and deep-embossed textures to latest supermat solids. Perfect for retail, residential and institutional applications.

DOORS

With an extensive range of styles, sizes and materials such as polyester, TFL and 3D.

MOULDINGS

With a wide array of sizes and models, mouldings add beauty and elegance to your project.

HIGH PRESSURE LAMINATE

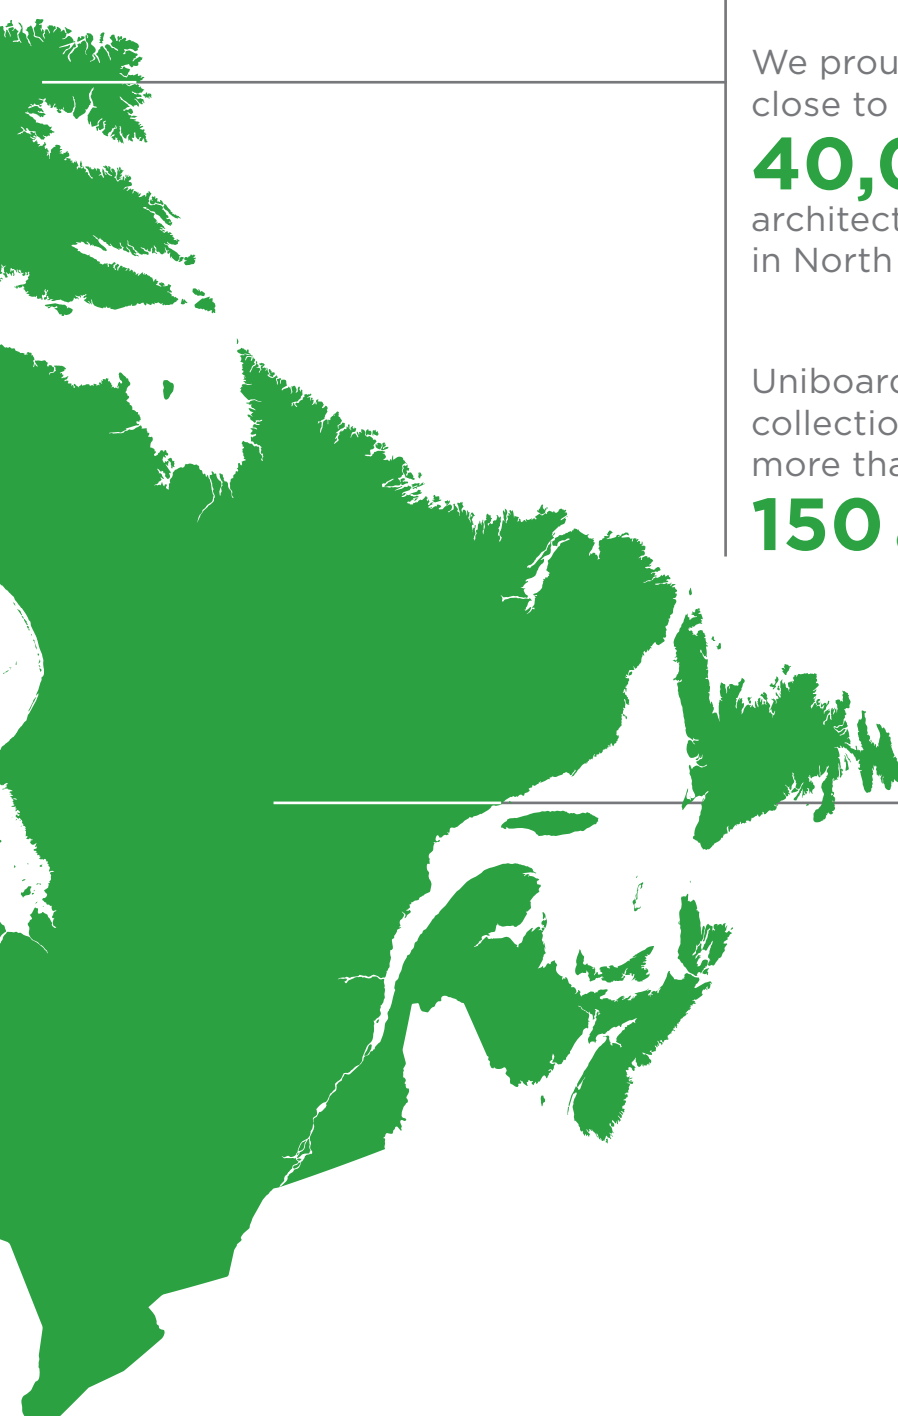

A perfect complement for countertops or finish end panel, etc.

EDGEBANDING

Available on thin and thick formats and multiple widths for enhanced durability.

Uniboard is a proud member of AEC Daily, IDCEC approved credit CEU, AIA Continuing Service Education.

CONTINUING EDUCATION FOR ARCHITECTS AND DESIGNERS (CEU)

The courses offered by Uniboard® are the best way to deepen your knowledge on exciting topics related to your field of activity. Our continuing education program allows architects and designers from across North America to update and develop their professional skills. Courses can be taken online on the AEC Daily platform or in the form of Lunch & Learn with one of our team members.

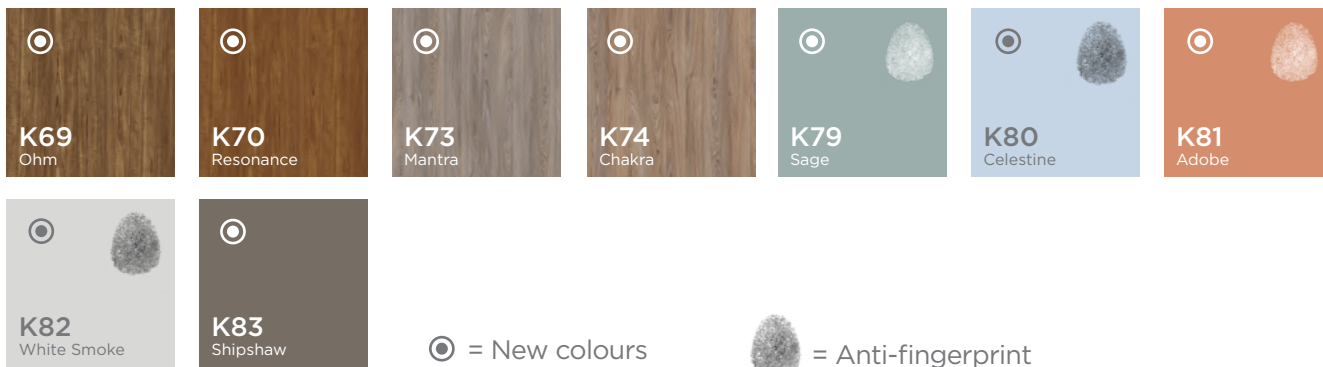

TFL DOORS

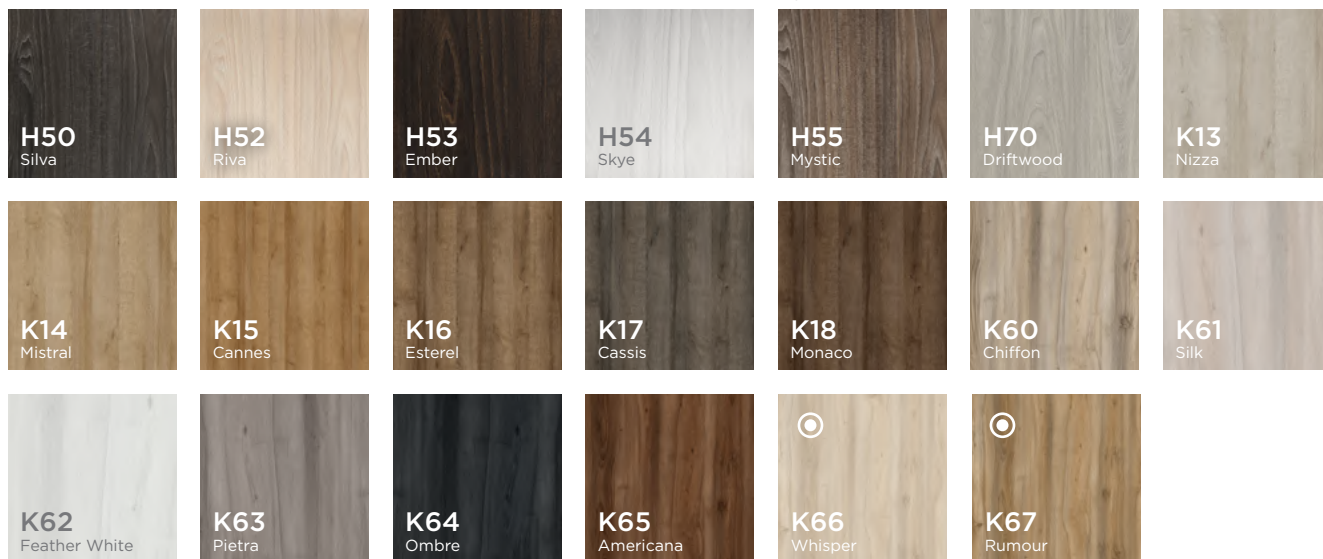

TFL door colours and textures pay tribute to the purest elements found in the most spectacular natural settings. Following a continuous evolution in innovative colours and textures, these doors feature luxuriously realistic and authentic styles, in warm, natural tones that bear a stunning resemblance to real wood.

HPL

Design 360 is the industry's first complete solution for digital accuracy of TFL panels, offering unmatched quality for precise visual output for our TFL collection.

Featuring access to high resolution files in multiple formats, real-time visualization of textures and seamless integration with any CAD and 3D design software.

Perfect for architects, designers, manufacturers and customers, **Uniboard's Design 360 platform lets you design with confidence!**

A man with short dark hair, wearing a dark grey sweater, is sitting at a wooden desk. He is looking at a large computer monitor. The monitor displays a 3D architectural rendering of a modern building with large glass windows and a staircase. A green circular graphic is overlaid on the image, containing text.
