redefining wood®

## K43 SUMMIT WHITE

# Redefining Wood<sup>®</sup>

Uniboard<sup>®</sup> introduces its complete decorative panels (TFL) Collection, a product selection that is sure to inspire you to get creative with your projects. Always on the lookout for the latest trends and passionate about design, Uniboard offers innovative textures that capture the essence of nature's inherent beauty, soft natural fabrics and authentic earthy textures.

Uniboard has been redefining wood for the past 35 years. With our innovative textures such as our classic Brushed Elm Synchronized finish and our deep Sequoia finish, we are true trailblazers in the industry.

You will never look at TFL the same way again.

## K45 WAVE BLUE

## New 2019-2020 Collection

Our TFL panels are now available in a brand-new palette that encourages a lavish blend of nature and design, where colours and textures pay tribute to the pure elements found in the most spectacular natural settings. Following a continuous evolution in our innovative colours and textures, this extension of the collection features luxuriously realistic and authentic styles, in warm, natural tones that bear a stunning resemblance to real wood.

# Uniboard® Textures

From specialty linear 3D textures to European high-gloss, Uniboard TFL comes in 13 different finishes that can match any laminate surface.

## *Synchronized finishes*

### BRUSHED ELM

The Brushed Elm finish boasts a luxurious and deep brushed-wood texture. The matte-oiled surface replicates hours of hand-polishing, emphasizing the wood's natural cathedral patterns and crossgrain features.

### NOBELLA

Nobella is an exclusive synchronized deep wood texture crafted by Milan's leading design community. Inspired by Italy's best modern styles, produced here in North America.

### RIVIERA OAK

The Riviera Oak finish is the newest texture created by our Woodprint Duo Technology. Pushing the boundaries of the likeness of a real wood texture, it brings together different circular and linear patterns reminiscent of the elegance of the oak wood grain.

## *Standard finishes*

### BISTRO®

The contemporary linear wood grain of this finish accentuates the look and feel of real wood in all its subtlety.

### DOLOMITE®

Often called a basic finish, Dolomite offers a medium reflective quality that hides fingerprints and wear over the long-term. It works well with all kinds of projects.

### VELLUM

Vellum is our newest matte finish highlighted by subtle texturing that enhances both solid colors and woodgrain designs.

## Signature finishes

### AURA

Aura features a complex wood grain and a low-lustre polish that mimics real wood. The soft touch of this finish is perfect for horizontal applications, especially office furniture. It is well-liked for its versatility.

### CALICO

Imitating linen fiber, the Calico finish provides all the softness and versatility of a woven material. The subtle crossing of textile fibers accentuates the relief decoration and makes it soft and pliable appearance. While offering the purity of a natural material, Calico is a chic touch that can suit any decorating project.

### HIGH GLOSS

This smooth, mirror-like specialty finish adds shine to your decor. It lends an elegant and stylish look to any colour.

### LYRA

Exclusive to Uniboard®, Lyra is the latest in European TFL technology. This finish displays a delicate yet complex layered woodgrain that brings craftsmanship and design to the forefront.

### RIO®

Linear and 3D, the Rio finish exhibits an authentic and modern brushed surface. Its rich relief pairs perfectly with rustic decors.

### SEQUOIA

The new Sequoia finish is characterized by a deep relief that provides a pronounced 3D visual. The concave and convex remind effects changes in real wood finish make this a true timeless classic.

### SUPERMAT®

Playing with depth perception, this smooth matte finish is prized for the light touch it adds to any room.

## Recommended uses

OFFICE FURNITURE, COMMERCIAL DISPLAYS, HEALTHCARE FACILITIES, RESIDENTIAL KITCHENS, STORAGE

Uniboard® TFL panels are available by special order in all major markets and come in a wide selection of industry grades, sizes and thicknesses. Several complementary products, such as HPL, edgebanding and mouldings, are matched with our

TFL colours to help you complete your decorative projects quickly and easily. Our Integra® chart was specifically designed to help you find the perfect product matches.

## Uniboard Melamine 101

Uniboard melamine is a composite wood-based panel onto which a decorative paper layer is thermally fused (using heat and pressure) to the top and bottom surface in order to create a durable and decorative panel. The melamine resins used

to bond the decorative paper and panel together are renowned for their unique physical properties including: durability, hardness, scratch and stain resistance, as well as colour stability.

## Decorative surface characteristics

PROPERTIES	TESTING METHODS	UNIBOARD MEETS TESTING REQUIREMENTS
WEAR RESISTANCE	NEMA LD 3-2005	400 cycles (solid colours) 125 cycles (prints)
APPEARANCE	NEMA LD 3-2005	No surface defects Type A, B or C
STAIN RESISTANCE	NEMA LD 3-2005	1-10 no effect (solid colours) 11-15 moderate (prints)
CLEANABILITY	NEMA LD 3-2005	Max 20
LIGHT RESISTANCE	NEMA LD 3-2005	Slight
HIGH TEMPERATURE RESISTANCE	NEMA LD 3-2005	Slight
RADIANT HEAT RESISTANCE	NEMA LD 3-2005	No effect after 60 seconds
BOILING WATER RESISTANCE	NEMA LD 3-2005	No effect
IMPACT RESISTANCE	NEMA LD 3-2005	381 mm/m 15"
FIRE RESISTANCE	ASTM E-84	Class III or C
WARPING	CPA Annexe D	3 mm/m
FORMALDEHYDE EMISSION	ANSI A208.1.99	<0.04 ppm

## The environment

Using NU Green® panels can help your construction projects achieve up to 6 LEED® points, based on the NC-2009 (USGBC) version, and up to 4 LEED points with the new LEED v4 version (in effect as of January 2015 in Canada).

The complete Thermally Fused Laminate Collection is available for all types of Uniboard panels, such as raw particleboard, MDF and the NU Green product line.

NU GREEN ZERO®

NU GREEN 2®

NU GREEN MR50®

## Cleaning and maintenance

Maintaining your Uniboard melamine surfaces to look polished and new is easy. Following production, panels can be cleaned with the help of paint thinner or solvents used for varnish or contact glue. For regular cleaning, use a synthetic soft cloth with soap and water or a non-abrasive household cleaner to gently wipe the area.

# UNIBOARD DESIGN 360

All Uniboard® products can now be easily incorporated into any CAD design project.

 SketchUp
